PROFILE SUMMARY

Full-stack & mobile developer (React/TypeScript, Flutter, Python/Django), second-year student at BIT, with a design sensibility and a strong interest in AI and cybersecurity. A dozen projects delivered and three hackathons in one year. Google PM, Anthropic (MCP), and OPSWAT (ICIP) certified — seeking an internship.

PROJECTS

- AgroConnect BF — B2B Agricultural Platform** · Academic Project (BIT) · Lead Dev · 2026
- Architected a multi-platform B2B agricultural platform — web (React / Vite), mobile (Flutter) and REST API (Node.js / Express).
 - Led the web team as Lead Dev, structured the front-end by role (farmer, buyer, transporter, admin) and coordinated the integration of the three repositories.
- Zamsma — Educational Mobile Game (Chemistry)** · HGE Hackathon 2026 · Flutter / Django · Mirror Team
- Offline-first educational chemistry mobile game (Flutter + Django 5/DRF, PostgreSQL, Docker) — presented at the Grandes Écoles Hackathon with Team Mirror.
- GymX v2 — Gym Management (SaaS)** · Personal Project · React 19 / TypeScript / Supabase · 2026
- SaaS platform for gym management (React 19, TypeScript, Supabase): RBAC, real-time booking, CRUD back-office, analytics, and bilingual FR/EN interface.
- CV Builder Pro — CV Generator** · React 19 · Vite · AI · 2026
- CV Generator (React 19, Vite): 14 templates, PDF ATS / Word / JSON export, Gemini AI (analysis + FR ↔ EN translation) and automated tests.
